

Document Scanning Partner

Getting those bulging filing cabinets and mountain of archive boxes into your **PowerRetrieve** system is easy. We work with a document scanning partner to help you achieve that goal, allowing you to unlock the information across all your paper documents old and new.

DocumentScanning.net is the scanning division of Allan Webb Ltd, providing a range of bulk document scanning, document conversion and data capture solutions and services to clients throughout the UK.

DocumentScanning.net can scan and digitise all sizes and types of document. With ISO9001 accreditation for quality control and over fifty year's experience in handling documents for local authorities, councils, educational facilities and the military, for whom confidentiality and security is essential.

documentscanning.net also provide a secure document disposal service for sensitive information and a recycling facility for non-sensitive files.

For more information or to arrange a quote for your back scanning requirements, [email](mailto:sales@infocap.co.uk) us and we will put you in touch the team at documentscanning.net
